Premium Hygiene  
*New Vision!*

---

## YİĞİTOĞLU AT FIRST GLANCE...

As Yiğitoğlu, we offer an extensive product range that includes innovative and functional solutions for industrial facilities using chemical raw materials and all professional areas where cleaning products and equipment are used. In addition to these value-adding products, our supply chain solutions, experienced team providing technical support, and the quality of service we offer contribute to your success in the face of strong competitive conditions. We are ready to be your solution partner on the road to success.

Founded in 1956 by our esteemed founder Hıdır Yiğitoğlu, Yiğitoğlu began its activities in the field of “Chemical Substances” in 1986. The services and products we offer in two main categories, “Chemical Product Groups” and “Professional Cleaning Products and Systems,” have made the Yiğitoğlu name synonymous with quality and trust.

# Premy Protect Premium Hygiene *New Vision!*

*Premy Protect, an innovative provider of professional hygiene solutions, is a trusted cleaning and hygiene partner for professional businesses. Its product portfolio is designed to sustainably meet high hygiene standards across a wide range of sectors, from food production facilities to hotels, restaurants, and healthcare institutions.*

## Expert Team, Custom Solutions for Businesses.

*Our team of expert sales and technical service professionals develops customized solutions for businesses, ensuring your operations meet the highest standards of safety, hygiene, and sustainability.*

## Effective. Safe. Sustainable.

*Premy Protect formulations combine powerful cleaning performance with environmentally friendly ingredients. All products optimize hygiene processes for businesses while saving water, energy, and time. This increases operational efficiency and contributes to sustainability goals.*

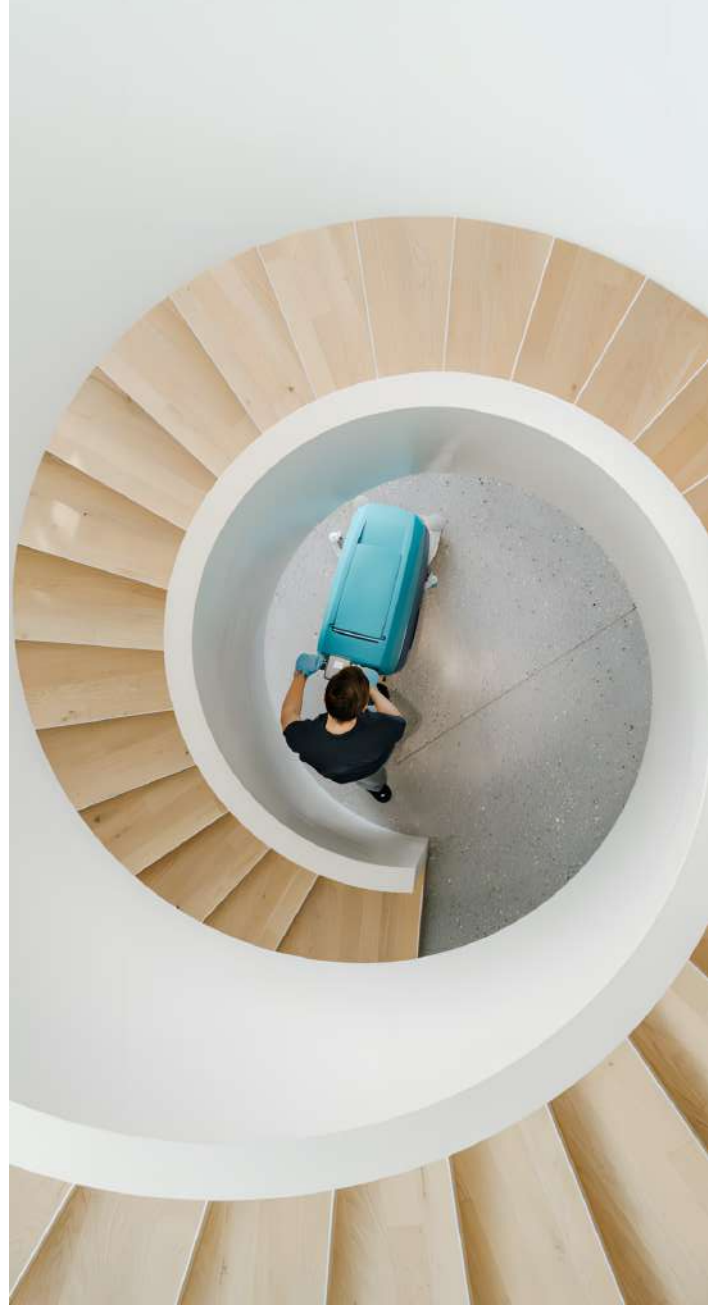

## Expert Support, Lasting Protection.

*Premy Protect offers not only products but also professional consulting services. Our experienced team provides customized training, hygiene plans, and implementation support tailored to each facility's needs, creating long-term protection and a safe environment.*

## More Than Just a Manufacturer: An Active Partner in the Field

*Partnering with Premy Protect means working with an active and reliable business partner that offers unconditional support. With our industry expertise and field experience, we contribute to our customers' long-term success.*

## The Right Partner for Sustainable Success

*At Premy Protect, we thoroughly analyze our customers' needs and develop strategies based on measurable results. We create added value in your operations and provide long-term competitive advantage.*

## Analysis-Based Strategic Solution Partnership

*Our results-driven approach is supported by comprehensive analysis. We thoroughly evaluate our clients' operational processes and develop strategies that maximize efficiency and ensure regulatory compliance.*

## Housekeeping and Building Maintenance Products

*“Hygiene in every  
detail, efficiency in  
every process.”*

Our high-performance solutions, integrated into hygiene, maintenance, and protection processes across all areas of your facility, deliver quality and operational efficiency together.

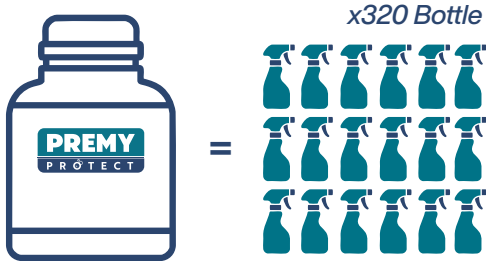

Our product portfolio, built around guest satisfaction, adds value to your organization. Smart dosing technologies provide energy and water savings, delivering measurable and sustainable cost reductions in washing operations from day one. With optimized cleaning processes, time loss is minimized, thereby increasing workforce efficiency and operational capacity.

With our user-friendly machines and automatic dosing systems, process management is carried out both comfortably and flawlessly.

## Your Power in Professional Cleaning: Ultimate SC Products

*Ultimate SC products provide direct solutions to your problems. With new-generation formulations, we bring advanced cleaning technologies to your site. This allows you to achieve superior hygiene standards while maximizing your operational efficiency.*

### Small Bottle, Big Savings

*You can use a single dosing system for up to 4 products. We ensure maximum hygiene performance with realistic dosing ratios and minimal resource usage. From a 1.5L concentrate, you can obtain up to 320 bottles of ready-to-use product. This reduces waste by approximately 99% compared to ready-to-use products.*

### Safe and Sustainable Cleaning

*Ultimate SC products transform your business processes by providing integrated cost optimization with ease of use. The equipment used in the application saves time and increases work safety. The automatic and lockable dosing system eliminates direct contact of personnel with chemicals.*

**Ultimate SC10****Highly concentrated nano surface care and cleaning product****PH3011 - 1,5 L / 1,4 kg / Liquid**

Its nano-technology formula, which combines cleaning and maintenance in one step, is suitable for use on all water-resistant and glossy surfaces such as glass, mirrors, stainless steel, chrome, PVC, and marley.

**Ultimate SC20****Highly concentrated glass cleaning product****PH3014 - 1,5 L / 1,4 kg / Liquid**

With its powerful formula and special solutions, it removes dirt and stains from shiny surfaces such as glass, windows, and mirrors, leaving a brilliant finish.

**Ultimate SC30****Highly concentrated acidic bath cleaning product****PH3015 - 1,5 L / 1,7 kg / Liquid**

It is a powerful acidic bathroom cleaner that ensures easy removal of bathroom dirt and limescale deposits from areas such as toilets, urinals, washbasins, sinks, and shower cabins.

**Ultimate SC40****Highly concentrated hygienic multi-purpose cleaning product****PH3016 - 1,5 L / 1,8 kg / Liquid**

With its strong alkaline formula, it easily removes heavy soils such as body oils, soap residues, body dirt, greasy creams, and limescale from bathroom areas.

**Ultimate SC50****Highly concentrated toilet cleaning product****PH3012 - 1,5 L / 2 kg / Liquid**

It cleans limescale, organic stains, and stubborn soils formed in toilets and urinals, ensuring hygiene. Thanks to its viscous structure, the contact time with the applied surface is increased, making it more effective.

**Ultimate SC60****Highly concentrated air freshener.****PH3013 - 1,5 L / 1,4 kg / Liquid**

Thanks to special active ingredients, it neutralizes unpleasant odors without masking them. After neutralization, it leaves a pleasant fragrance in the environment with its perfume content.

Essento

### Spray room fragrance

#### PH3017 - 0,75 L / 0,6 kg / Liquid

It is a spray room fragrance that refreshes the air in rooms and toilets. It can also be applied to curtains and textiles to enhance fragrance longevity in the environment.

Freshaura

### Spray room fragrance

#### PH3018 - 0,75 L / 0,6 kg / Liquid

It is a spray room fragrance that refreshes the air in rooms and toilets. It can also be applied to curtains and textiles to enhance fragrance longevity in the environment.

Biodrain

### Biological odor eliminator

#### PH3019 - 0,75 L / 0,7 kg / Liquid

It eliminates unpleasant odors at their source rather than masking them, providing a clean and fresh environment. It is suitable for use in food preparation areas, sanitary areas, and waste areas.

Fresh Clean

### Liquid general-purpose cleaner

#### PH3020 - 5 L / 5 kg / Liquid

#### PH3021 - 20 L / 20 kg / Liquid

It is a multi-purpose surface and floor cleaner used on all water-resistant surfaces. With its high perfume content, it leaves a pleasant fragrance after cleaning.

Magic Glass

### Glass cleaning product

#### PH3028 - 0,75 L / 0,7 kg / Liquid

#### PH3029 - 5 L / 4,8 kg / Liquid

It easily removes dirt and stains from interior and exterior glass, doors, windows, display cases, mirrors, shower cabins, tiles, porcelain, and ceramic surfaces.

Minero

### Cream cleaning product

#### PH3024 - 0,75 L / 1,1 kg / Liquid

With its micro-particulate structure, it easily removes heavy, stubborn grime from hard surfaces in kitchens and bathrooms, providing a flawless clean.

**BathCare****Bathroom and toilet cleaning product****PH3026 - 0,75 L / 0,8 kg / Liquid**

It is an acidic cleaning product used for sanitary area cleaning. It ensures easy removal of limescale, rust, and heavy dirt. It can be used for daily and periodic cleaning.

**ToiletCare****WC cleaning product****PH3027 - 0,75 L / 0,8 kg / Liquid**

It is used for cleaning limescale, uric scale, and rust stains in areas such as toilets, WCs, toilet bowls, and urinals. It can be used for daily and periodic cleaning.

**Perfect Gel****Thick bleach****PH3025 - 5 L / 5.25 kg / Liquid**

It is a chlorine-based hygienic multi-purpose cleaning product containing fragrance. With its thick, powerful formula, it delivers effective and fast cleaning across many areas while ensuring hygiene.

**Ultimax N****Neutral cleaning product suitable for use in machines****PH3032 - 10 L / 10,2 kg / Liquid**

It is used for cleaning all water-resistant floors such as tiles, stone tiles, linoleum, PVC, and rubber. It is suitable for use in automatic machines as well as for manual cleaning.

**Ultimax L****Tire mark remover suitable for use in machines****PH3030 - 10 L / 10,2 kg / Liquid**

It is an effective cleaner for removing heavy dirt, grease, and tire marks. With its powerful formula, it removes marks caused by forklifts, vehicle tires, and similar sources.

**Ultimax A****Industrial area cleaning product suitable for use in machines****PH3031 - 10 L / 10,5 kg / Liquid**

It is ideal for surfaces such as epoxy and ceramic. It is used to remove heavy dirt and grease on hard floors in industrial areas, as well as organic oils on kitchen floors.

AlkaMax

### Heavy-duty cleaner and polish remover

**PH3034 - 5 L / 5,2 kg / Liquid**

**PH3035 - 20 L / 21 kg / Liquid**

It is a powerful dirt and polish remover that easily removes worn or unwanted polish. In addition to stripping polish, it also cleans heavy oil and dirt layers embedded in the surface.

Clean Master

### Dirt and polish remover for sensitive surfaces

**PH3033 - 20 L / 20,6 kg / Liquid**

It is a dirt and polish remover that easily removes worn, damaged, or unwanted polish. In addition to polish removal, it cleans oil and dirt layers embedded in the surface.

MarShine

### Liquid crystallizing marble polish

**PH3037 - 5 L / 5,6 kg / Liquid**

It is used for polishing surfaces such as marble, travertine, and stone tiles. By penetrating the applied surface, it creates a hard, scratch-resistant, and perfectly glossy finish.

PolyShine

### Polymer-based hard floor polish

**PH3036 - 5 L / 5 kg / Liquid**

It is a polymer-based polish that forms a durable and long-lasting film layer on the applied floor. While providing an excellent shine, it also protects the surface against external factors.

CleanShine

### Floor cleaning product with polish

**PH3038 - 5 L / 5 kg / Liquid**

It is a polymer-based floor cleaning and maintenance product. In addition to cleaning surfaces such as Marley, PVC, vinyl, and linoleum, it polishes them, provides maintenance, and enhances shine.

NeuCare

### Neutral floor cleaning product

**PH3039 - 5 L / 5,1 kg / Liquid**

**PH3040 - 20 L / 20,4 kg / Liquid**

It is developed for the daily cleaning and maintenance of polished, glossy surfaces. With its neutral formula, it cleans without dulling or damaging the polish, while extending the life of the coating through regular care.

Carpet Master

**Carpet cleaning product for spray-extraction machines**

**PH3041 - 5 L / 5,1 kg / Liquid**

**PH3042 - 20 L / 20,4 kg / Liquid**

It is an automatic carpet cleaning product suitable for cleaning carpets, sofas, and upholstery. Thanks to its specially foam-controlled formula, it effectively removes dirt, stains, and residues.

Carpet Foam

**Carpet shampoo**

**PH3043 - 5 L / 5 kg / Liquid**

It quickly and easily removes stubborn dirt from all types of carpets, sofas, and fabric-covered surfaces. With its neutral pH, it can be used safely without damaging the fabric texture.

AntiFoam

**Defoamer**

**PH3046 - 5 L / 5 kg / Liquid**

It is used to eliminate foam in carpet cleaning machines, cleaning automats, and similar electric water-extraction machines where foam is not desired.

CM1

**Water-based carpet stain remover**

**PH3044 - 0,5 L / 0,5 kg / Liquid**

It is a water-based stain remover used for local cleaning of many stains such as tea, cola, coffee, sauces, chocolate, fruit juice, and ice cream on carpets and sofas.

CM2

**Oil-based carpet stain remover**

**PH3045 - 0,5 L / 0,48 kg / Liquid**

It is an oil-based stain remover used for the local removal of many oil-based stains such as pen marks, grease, cream, cosmetic products, soot, and tar from carpets and sofas.

ColdCare

**Cleaning product for deep freezers**

**PH3047 - 5 L / 5,1 kg / Liquid**

It is a cleaning product used for cleaning deep freezers without the need for defrosting. Thanks to its fast and effective formula, it remains effective even at -35 °C.

## Kitchen Hygiene Products

*“Hygiene starts in the kitchen.”*

Developed in line with food safety standards, our products provide maximum cleanliness and protection in kitchens, one of the most critical areas for hygiene.

Our formulations, compatible with industrial equipment, deliver effective cleaning without damaging surfaces, while our smart dosing systems, with their ergonomic design, ensure water, energy, and labor optimization.

The result is a user-friendly, cost-effective, and sustainable hygiene solution. To enhance guest satisfaction and support operational excellence, our high-performance hygiene products strengthen your service quality.

## With Kitchen Dosing Systems Constant Concentration, Continuous Hygiene

*It doses the set product concentration consistently. This ensures reliable results with every application and prevents product waste. In addition, accurate dosing enhances cleaning performance while enabling effective cost control.*

### **No Need to Worry!**

*You can always rely on it. It has level control inputs that provide the option to stop the pump or allow it to continue operating when the alarm is triggered. In addition, the product transfer hose has high chemical resistance.*

Power Matic

**Industrial dishwasher detergent**

**PM2011 5 L / 5 kg / Liquid**  
**PM2012 20 L / 22 kg / Liquid**

It is an industrial dishwasher detergent suitable for use in all types of industrial dishwashing machines. It effectively cleans grease and dirt on dishes.

Power Rinse

**Industrial dishwasher rinse aid**

**PM2013 5 L / 5,1 kg / Liquid**  
**PM2014 20 L / 20,4 kg / Liquid**

It ensures that dishes come out spotless, fast, shiny, and dry in industrial dishwashing machines. By providing neutralization after washing, it ensures hygienic cleaning.

LimeOff

**Industrial dishwasher descaler**

**PM2019 5 L / 6,25 kg / Liquid**

It is used for cleaning limescale residues that accumulate over time in dishwashers, heaters, bain-marie units, and closed-system tea/coffee machines.

Cedrosa

**Highly concentrated manual dishwashing detergent**

**PM2015 5 L / 5,1 kg / Liquid**  
**PM2016 20 L / 20,4 kg / Liquid**

With its powerful formula, it quickly and effortlessly dissolves tough grease and dried food residues even at low temperatures. It eliminates unpleasant odors caused by food residues.

CleanMax

**Heavy-duty grease and dirt kitchen cleaning product**

**PM2021 5 L / 5,5 kg / Liquid**  
**PM2022 20 L / 22 kg / Liquid**

It effectively and quickly removes heavy and stubborn dirt. It ensures efficient cleaning of equipment such as ovens, grills, hoods, stoves, pots, and pans.

Q-19

**Hygienic surface cleaning product**

**PM2024 5 L / 5 kg / Liquid**

It is used for cleaning and hygiene purposes in many areas such as hotels, hospitals, and factories. It ensures the hygiene of all washable surfaces and equipment in food production facilities.

Ultimate SC70

**Highly concentrated degreaser, kitchen cleaner**

**PM2020 1,5 L / 1,53 kg / Liquid**

It enables fast and effective removal of dirt and grease from surfaces. It is suitable for daily use on surfaces such as stoves, countertops, kitchen appliances, walls, and floors.

Ultimate SC80

**Highly concentrated hygienic surface cleaning product**

**PM2025 1,5 L / 1,5 kg / Liquid**

It is a concentrated hygienic product that provides cleaning and hygiene for kitchen surfaces in a single application. It is suitable for daily use on all food preparation areas and utensils.

Grillix

**High-performance burnt grease remover**

**PM2027 0,75 L / 0,803 kg / Liquid**

**PM2028 5 L / 5,35 kg / Liquid**

It delivers excellent results in cleaning carbonized, burnt, and baked-on grease. Thanks to its formulation, it acts quickly even on cold surfaces.

S17

**Hygienic fast surface cleaning product**

**PM2026 0,75 L / 0,645 kg / Liquid**

It is a fast surface hygiene product that does not require rinsing. It can be used on all food-contact surfaces such as countertops and slicers in food production facilities.

SaniFoam

**Chlorine-containing foaming cleaning and hygiene product**

**PM2023 5 L / 5,6 kg / Liquid**

It is a chlorinated alkaline foam cleaner used for cleaning heavily soiled and greasy surfaces such as kitchen floors and walls. While cleaning, it ensures hygiene on the applied surface.

VegiMax

**Hygienic fruit and vegetable rinsing product**

**PM2031 5 L / 5,25 kg / Liquid**

It is a rinsing agent used for the hygienic cleaning of raw vegetables and fruits, as well as kitchen equipment that comes into contact with food.

Dip-Repair

**Chlorine-based liquid pre-soaking product**

**PM2017 20 L / 23 kg / Liquid**

It is a very powerful pre-soaking product that delivers effective results on heavily soiled and stained dishwashing equipment. Thanks to the chlorine it contains, it provides excellent cleaning.

Oven ProMax

**Cleaning product for ovens with integrated cleaning systems**

**PM2030 5 L / 5,35 kg / Liquid**

It is designed for fast and effective cleaning of ovens with integrated cleaning systems. It is used to remove the toughest dirt, grease, and residues in a single application.

Oven ProRinse

**Rinse aid for ovens with integrated cleaning systems**

**PM2029 5 L / 5,2 kg / Liquid**

It neutralizes the alkalinity in the cooking chamber and eliminates formed limescale residues. Thanks to its practical and fast application, it ensures hygiene and extends the service life of your oven.

Metaliz

**Metal mark cleaning product for porcelain**

**PM2018 5 L / 5,15 kg / Liquid**

It is used to remove black metal marks and scratches formed over time by forks, knives, and spoons on porcelain, plates, and similar equipment.

BrightStar

**Cleaning and maintenance product for stainless steel surfaces**

**PM2032 0,5 L / 0,575 kg / Liquid**

It cleans oil-based dirt, limescale stains, and burnt food residues from stainless steel, chrome, nickel, brass, and glass-ceramic cooktops, and provides surface maintenance.

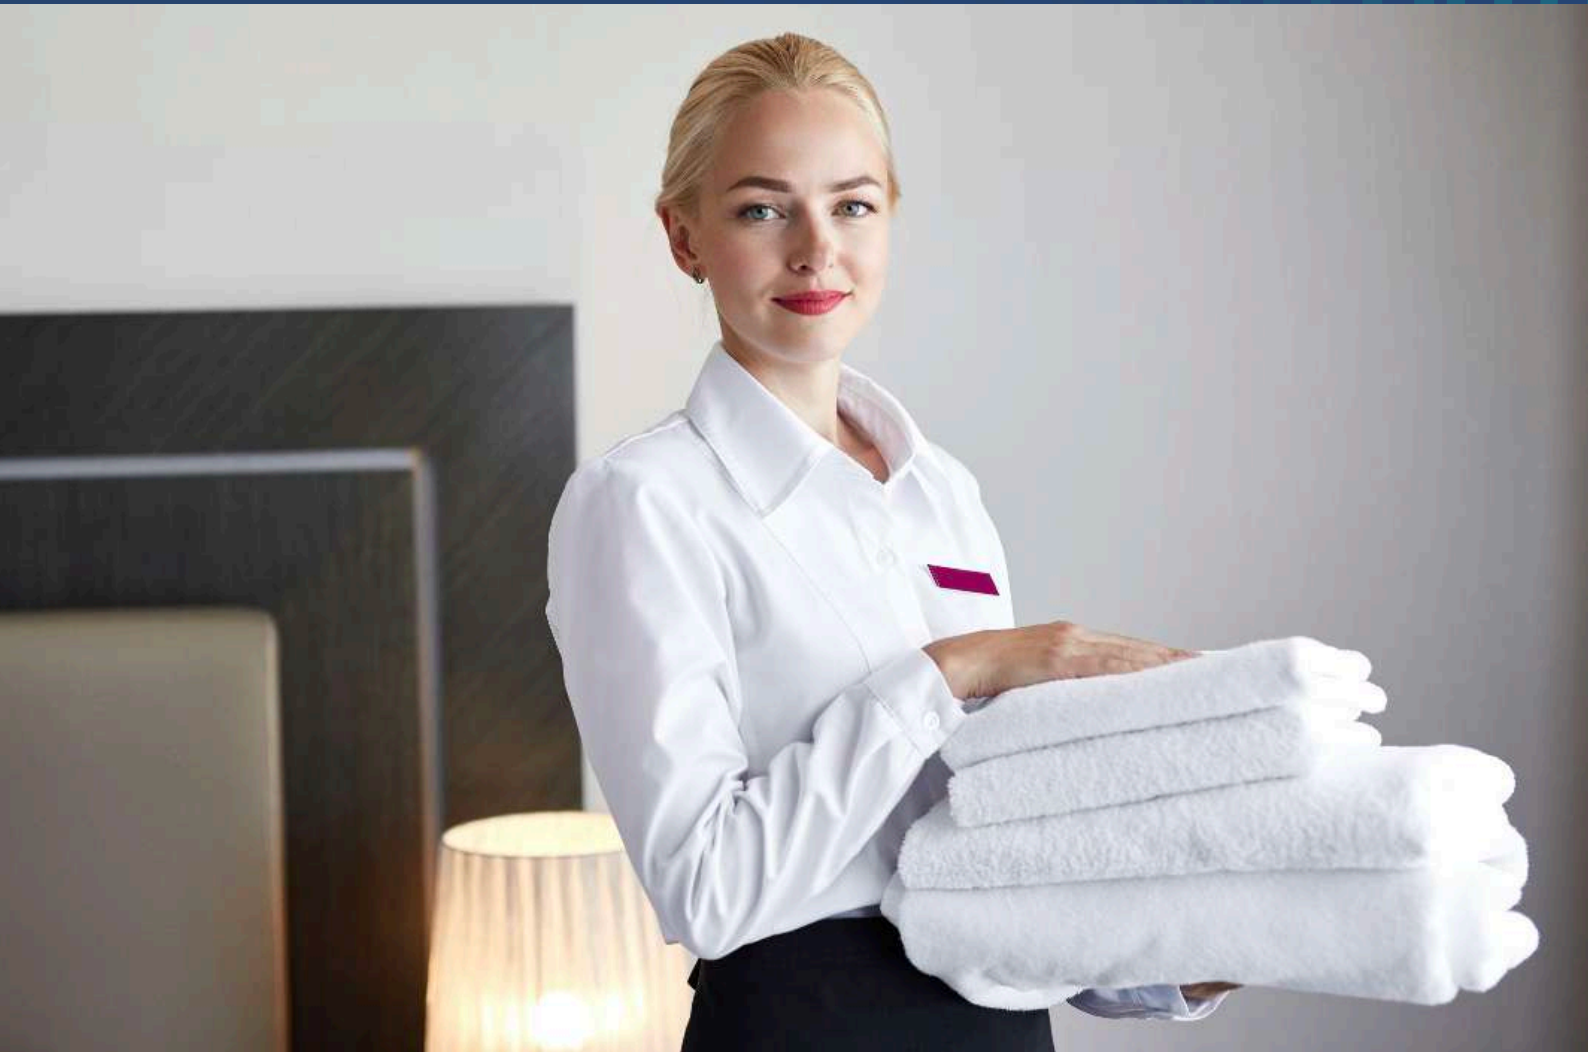

Splendor

**Stainless steel polish**

**PM2033 0,5 L / 0,4 kg / Liquid**

It is a maintenance and polishing agent for stainless steel surfaces. It removes fingerprints, water stains, light dirt, and other adhered residues from steel surfaces.

## **Textile Hygiene Products**

*“Powerful,  
sustainable hygiene  
for delicate fabrics”*

Our products deliver high hygiene and cleaning performance without damaging textiles. Our customized chemical solutions provide maximum protection through fabric-sensitive components, while the use of detergents at optimal dosage reduces chemical waste and contributes to environmental sustainability.

Through process optimization in energy and water consumption, they create measurable cost advantages in your washing operations from day one. Our integrated dosing systems minimize manual errors while offering ease of use and a high level of process control.

## Smart Solution for Efficient Cleaning, Right System

*Liquid detergent dosing systems standardize cleaning performance by using the correct amount of product in every wash. Automatic dosing prevents chemical waste and ensures cost control. In addition, the system's precise measuring mechanism optimizes both energy and water consumption, increasing overall efficiency.*

## Long-Lasting, Safe, and Durable Dosing Technology

*The dosing system offers long-lasting and reliable use thanks to its high chemical resistance. By resisting acidic and alkaline cleaning products, it ensures safe and uninterrupted operation of the system. As a result, maintenance needs are reduced, and operational continuity and safety are maximized.*

## Technology That Ensures Hygiene Standards

*Hygiene temperature monitoring can be performed for washed laundry. In this way, hygiene standards are ensured at every stage of the washing process. Accurate temperature monitoring enables laundry to be used in a hygienic and safe manner.*

PureWash HC

**Highly concentrated liquid main wash detergent for standalone use**

**PT1014 20 L / 25,2 kg / Liquid**

It is suitable for use in all types of industrial, conventional, and tunnel-type machines. It provides effective cleaning on both colored and white textiles. It does not contain phosphate, NTA, or EDTA.

PureWash Power

**Liquid washing detergent for heavily soiled laundry**

**PT1019 20 L / 20,4 kg / Liquid**

It is suitable for use in all types of industrial, conventional and tunnel-type machines. Thanks to its powerful formula, it effectively removes dirt and stains embedded in textiles.

PureWash Optic

**Concentrated liquid detergent containing optical brightener**

**PT1020 20 L / 20,4 kg / Liquid**

It is suitable for use in all types of industrial, conventional, and tunnel-type machines. Thanks to the optical brighteners it contains, it gives textiles excellent brightness.

PureWash ALC

**Liquid alkaline laundry detergent**

**PT1018 20 L / 26 kg / Liquid**

It is suitable for use in all types of industrial, conventional and tunnel-type machines. With its strong concentrated formula, it removes heavy soil and ensures cleanliness and hygiene.

PureWash Special

**Alkaline auxiliary washing agent**

**PT1012 20 L / 27 kg / Liquid**

It is suitable for use in all types of industrial, conventional, and tunnel-type machines. It penetrates deeply into heavy soil, blood, grease, and protein stains to ensure effective washing.

PureWash CL

**Chlorine-based liquid bleach**

**PT1013 20 L / 23,2 kg / Liquid**

It is suitable for use in all types of industrial, conventional, and tunnel-type machines. It removes stains and mildew from white textiles. It ensures hygiene on textiles at low temperatures.

PureWash O2

**Liquid oxygen-based bleach and hygiene agent**

**PT1017 20 L / 23 kg / Liquid**

It is suitable for use in all types of industrial, conventional and tunnel-type machines. It has a special formula that provides cleanliness and hygiene without damaging textile fibers.

WashMaster Active

**Chlorine-based bleach**

**PT5013 - / 17 kg / Powder**

It is an auxiliary washing agent suitable for use in all types of industrial washing machines. It ensures that laundry is clean and hygienic.

WashMaster Oxy

**Oxygen-based bleach**

**PT5014 - / 10 kg / Powder**

It is an auxiliary washing agent suitable for use in all types of industrial washing machines. It ensures that laundry is clean and hygienic.

PureWash RemOil

**Grease and soil removing auxiliary washing agent**

**PT1027 5 L / 4,9 kg / Liquid**

**PT1016 20 L / 19,8 kg / Liquid**

It is suitable for use in all types of industrial, conventional, and tunnel-type machines. It can be safely used for washing all types of textiles, including delicate and woolen fabrics.

PureWash LR

**Grayness, limescale, and hardness removing auxiliary washing agent**

**PT1021 5 L / 6,25 kg / Liquid**

It is an auxiliary washing agent that removes limescale-related grayness that accumulates on laundry over time. It is suitable for use on textiles made of cotton, synthetic, and viscose materials.

PureWash Enzymax

**Concentrated liquid enzyme**

**PT1022 20 L / 20 kg / Liquid**

It is a concentrated liquid enzyme used for removing heavy grease and protein stains that cannot be eliminated by the main wash.

WashMaster Hero

**Heavy-duty dirt, grease, and blood removing auxiliary washing product**

**PT5015 - / 10 kg / Powder**

It is suitable for use in all types of industrial washing machines. It is a powerful alkaline auxiliary washing agent effective on heavy dirt, grease, and blood stains.

PureWash FR

**Neutralizing additive**

**PT1011 20 L / 22 kg / Liquid**

It is suitable for use in all types of industrial, conventional, and tunnel-type machines. It neutralizes detergent residues on textiles and prevents fabric damage.

PureWash Soft

**Laundry softener**

**PT1015 20 L / 20 kg / Liquid**

It is suitable for use in all types of industrial, conventional, and tunnel-type machines. It softens laundry and leaves a pleasant fragrance.

WashMaster Pro

**Enzyme-based main wash detergent**

**PT5011 - / 14 kg / Powder**

It is a main wash detergent suitable for use in all types of industrial washing machines. It provides effective washing at all water temperatures.

WashMaster Extra

**Enzyme-based, bleach-containing, TAED-enhanced complete wash detergent**

**PT5012 - / 14 kg / Powder**

It is a bleach-containing main wash detergent suitable for use in all types of industrial washing machines. It provides effective washing at all water temperatures.

PureWash Soflair

**Concentrated textile perfume**

**PT1023 5 L / 4,5 kg / Liquid**

It is a concentrated textile perfume applied to provide a pleasant fragrance to textiles.

PureWash Fleck A

#### Rust remover

**PT1024 0,5 L / 0,6 kg / Liquid**

It is a rust remover product that enables the effective and effortless removal of rust stains on textiles.

PureWash Fleck B

#### Multi-purpose stain remover

**PT1025 0,5 L / 0,51 kg / Liquid**

It is a multi-purpose stain remover that effectively removes oil, lipstick, blood, body oils, and dirt from textiles.

PureWash Fleck C

#### Tannin remover

**PT1026 0,75 L / 0,795 kg / Liquid**

It is used for removing stains such as fruit, vegetables, fruit juice, ketchup, tea, coffee, cocoa, chocolate, ice cream, marmalade, food sauces, grass, nicotine, and similar stains from textiles.

WashMaster Fleck E

#### Paint remover

**PT5016 - / 4 kg / Powder**

It is used to whiten laundry yellowed due to iron deposits and to restore white laundry that has been dyed by washing with colored garments to its original color.

## Personal Hygiene Products

*“Freshness in every touch, confidence in every use”*

Our carefully developed products ensure maximum personal hygiene while leaving a soft and refreshing feel on the skin. Our product portfolio, built around guest satisfaction, is developed to meet high-quality standards that reflect your corporate image.

Blended with carefully selected fragrances, our products deliver a sense of freshness with every use, enhancing the user's energy.

Our dosing systems, which combine aesthetics with functionality, offer a hygienic and user-friendly experience.

## Modern and Hygienic

*With its modern design, our dosing equipment adds elegance to usage areas and provides a professional appearance. Its ergonomic structure allows guests to use the system easily and safely. In addition, hygiene-focused design details make cleaning processes more efficient and reliable.*

## Premium Hygiene, Unique Experience!

*When you embrace a premium hygiene approach, cleaning becomes more than a routine—it transforms into a comfort experience. The freshness and sense of trust felt at every touchpoint bring renewed energy. With this new vision, both you and your guests experience the peace and professionalism provided by hygiene in every interaction.*

Sensitive

**White, pearlescent liquid hand wash detergent**

- PC4011 0,5 L / 0,51 kg / Liquid**
- PC4012 5 L / 5,1 kg / Liquid**
- PC4013 20 L / 20,4 kg / Liquid**

It is compatible with the skin's pH. Thanks to its cream-based formula that cares for the hands, it prevents skin dryness. It leaves a silky feeling after washing. With its special perfume, it provides a sense of freshness.

Elegance

**Blue, pearlescent liquid hand wash detergent**

- PC4014 0,5 L / 0,5 kg / Liquid**
- PC4015 5 L / 5 kg / Liquid**
- PC4016 20 L / 20 kg / Liquid**

It is compatible with the skin's pH. Thanks to its care-providing, cream-based formula, it prevents skin dryness. It creates a silky feeling after washing. With its special perfume, it provides a sense of freshness.

Pure Foam

**Foam hand soap**

- PC4017 0,3 L / 0,306 kg / Liquid**
- PC4018 5 L / 5,1 kg / Liquid**
- PC4019 20 L / 20,4 kg / Liquid**

It gently cleanses the skin while preserving its natural moisture balance and does not dry it out. It is compatible with the skin's pH. With its special perfume, it provides a sense of freshness.

F-13

**Hygienic hand washing foam**

- PC6013 0,3 L / 0,3 kg / Liquid**
- PC6014 5 L / 5 kg / Liquid**

It is compatible with the skin's pH. While cleaning the hands, it also ensures hygiene. Its highly active foam formula provides ease of use. It leaves a silky feeling after use.

L15

**Hygienic hand washing agent**

- PC6011 0,5 L / 0,5 kg / Liquid**
- PC6012 5 L / 5 kg / Liquid**

It is compatible with the skin's pH. While cleaning the hands, it also ensures hygiene. It leaves a silky feeling after use. With its special perfume, it provides a sense of freshness.

A-21

**Hand sanitizer**

- PC6017 1 L / 0,85 kg / Liquid**
- PC6018 5 L / 4,25 kg / Liquid**

It restores hand hygiene after every use throughout the day. While ensuring hygiene on the hands, it does not cause dryness thanks to the re-fattening agents it contains.

**Hair Therapy**

**Moisturizing hair shampoo**

**PC4020 5 L / 5,1 kg / Liquid**

Moisturizing formula cleanses and softens the hair. It helps the hair appear lively, shiny, and healthy. With its special perfume, it provides a sense of freshness

**Wash & Go**

**Hair and body shampoo**

**PC4021 5 L / 5,1 kg / Liquid**

It delivers excellent results for both hair and body cleansing. It ensures that hair and skin look lively, shiny, and healthy. With its special perfume, it provides a sense of freshness after washing.

**Fresh & Flow**

**Body shampoo**

**PC4022 5 L / 5,05 kg / Liquid**

Its special moisturizing formula easily cleanses, softens, and moisturizes the body. With its special perfume, it provides a sense of freshness after washing.

**Soft & Glow**

**FlowHair conditioner**

**PC4023 5 L / 4,75 kg / Liquid**

It ensures easy combing after application and prevents breakage. It especially helps processed, dyed, dry, and dull hair become softer and easier to comb.
